

# ESEG advanced principles course in gynecology

**December 04 – 05, 2025**

IRCAD France, 1 Pl. de l'Hôpital,  
67000 Strasbourg, France

Join us for a learning journey into gynecology with our ESEG advanced principles course! Over two enriching days, you'll delve into the latest advancements and techniques in the field, guided by esteemed experts and faculty members. Clinical users in operative gynecology and gynecological oncology will benefit from the event. Don't miss this chance to expand your knowledge, refine your skills, and connect with fellow professionals!

Organizer: KLS Martin SE & Co. KG,  
KLS Martin Platz 1, 78532 Tuttlingen/ Germany

## Scientific chair:

Prof. Dr. med.  
Ingolf Juhasz-Böss  
Freiburg  
Germany

Prof. Dr. med.  
Michael Müller  
Bern  
Switzerland

## Aims of the course:

- + Gain a comprehensive understanding of the technical principles behind electrosurgery and bipolar vessel sealing technology, including their mechanisms of action, advantages, limitations, and practical applications in various surgical procedures.
- + Stay up to date with the latest treatment options and innovations in the field, enabling participants to make informed decisions and apply cutting-edge techniques in clinical practice for improved patient outcomes.
- + Foster an international exchange of knowledge and experience among leading medical professionals, promoting collaboration, discussion of best practices, and sharing clinical insights from diverse healthcare systems and specialties.
