

The top half of the image features a panoramic view of the Shanghai skyline at dusk, with the Oriental Pearl Tower and other skyscrapers illuminated. Overlaid on the left side of this image is the 'ESEG' logo in a bold, red, sans-serif font. Below the skyline image, there are decorative elements: a large, light pink semi-circle and a smaller, darker pink semi-circle to its right, both containing faint wireframe globes.

ESEG masterclass course in gynecological oncology

September 12 – 13, 2025

Obstetrics & Gynecology Hospital of Fudan University,
Shanghai, 20090

We are thrilled to announce the second international ESEG masterclass course in gynecological oncology in China. The ESEG team eagerly anticipates two days filled with surgical expertise, intensive training, and interactive discussions, and we can't wait to share this learning experience with you. Don't miss this unique learning opportunity.

Organizer: KLS Martin SE & Co. KG,
KLS Martin Platz 1, 78532 Tuttlingen/ Germany

Scientific chairmen:

Prof.
Liangqing Yao
Shanghai
China

Prof. Dr. med.
Ingolf Juhasz-Böss
Freiburg
Germany

Aims of the course:

- + Gain a comprehensive understanding of the technical principles behind electrosurgery and bipolar vessel sealing technology, including their mechanisms of action, advantages, limitations, and practical applications in various surgical procedures.
- + Stay up to date with the latest treatment options and innovations in the field, enabling participants to make informed decisions and apply cutting-edge techniques in clinical practice for improved patient outcomes.
- + Foster an international exchange of knowledge and experience among leading medical professionals, promoting collaboration, discussion of best practices, and sharing clinical insights from diverse healthcare systems and specialties.
